

Our Provider Network: **Thousands Strong** ...and growing!

Mazzitti & Sullivan EAP Services prides itself on our dedication to customer service as well as our robust participating provider network.

We are nationwide

We work with thousands of providers across the United States and even in Canada. Each office is independently owned and operated.

You have choices

While Mazzitti & Sullivan EAP is affiliated with Mazzitti & Sullivan Counseling and Pyramid, our relationships with multiple other private and group practices allow us to refer our clients to whatever option is most appropriate.

We are always recruiting

Have someone specific in mind? Let us know! We are always actively recruiting new providers based on client requests. If they meet our requirements and are willing to work with us, it's a win-win.

Who's right for you?

Many counselors have "specialties" that can include working with children, providing marital or family counseling, focusing on substance abuse issues, or other areas of expertise.

Comparing lists

Want to compare your EAP options with your health insurance or to research? We can offer you several options based on your situation and email or fax them to you. Because we are always adding new counselors, our network is always increasing—so if you need us to expand your search, let us know!

Your counseling options

Our vast network includes counselors who are doing face to face, telephonic, or virtual/online/video therapy sessions. You choose what's best for you!

We offer other resources

We can also provide other resources in addition to counseling! When you're "stuck" and don't know where to turn, we can point you in the right direction.

Our staff is here to help

It can be overwhelming to navigate the long lists of counselors out there. Our team of dedicated Client Solutions Specialists and Client Solutions Advocates are available to help you to narrow down your choices to someone who will be a good fit for your situation.

We're also available to answer any questions or help you to resolve any issues! Call or email us at info@mseap.com.
